1	.44 Winchester,	Spruce,	28 00	50	2	100	10 00	6 00

These Cartridges are loaded with King's Smokeless Rifle Powder and are calculated to develop, with low pressure, the maximum velocity that it is safe to produce in standard rifles with chilled bullets, and prevent stripping. The trajectory is very flat. Great penetration. Least fouling and leading. Perfect accuracy.

IN RE-LOADING, USE PETERS PRIMERS.

# Peters Loaded Shells,

FOR TRAP AND GAME SHOOTING.

**Extra Quality Black Powder.**

## Reinforced Paper Shells.

FOR NITRO POWDERS.

**THE REINFORCED SHELL** consists, as is shown in cut, of an interior paper tube, extending about one-third of the way up from the base, made of a chemically treated paper, having a strength and an elasticity conforming to the exterior tube, also reinforced externally with **extra high brass**. The only truly scientific and thoroughly successful nitro powder shells.
